

**Jerry A. Hedrick, Jr., CFE**

Director, Corporate Audit  
Vectren Corporation  
United States

I use  
**IDEA.**

“We are pleased with IDEA. I firmly believe that our work product has improved by us being able to perform “exception auditing” on entire populations of data vs. our previous sampling techniques. An important success factor is the speed in which our team (and students) ramped up the learning curve. We partnered with a local university on a recent project in which four students performed analysis of our procurement card, fuel card, financials, and Accounts Payable data. They were up and running with IDEA within a few days, leading to some great results for our group.”

Vectren Corporation (NYSE:VVC), a progressive energy-holding company headquartered in Evansville, Ind., delivers gas and/or electricity to more than one million utility customers in Indiana and Ohio.

IDEA can read, display, analyze, manipulate, sample or extract from data files from almost any source. Lower your audit cost, add more quality to your work and meet professional standards.

Be a better auditor.  
You have the knowledge.  
We have the tools.
